

The Past Year in Auburn

Here we look at properties in Auburn. The price per SF peaked six months ago, as did the overall price. The percentage of REOs sales and Short Sales stayed below 10% all year. At below left we see the inventory analysis, showing decreasing sales and listings lately. At below right we see the number of days that properties are in escrow, TRID took effect in early October, and has made little difference. 02/11/2016.
